

TERM 4

# Hurunui College

ENTER TO LEARN, LEAVE TO SERVE WHAKAURU KI TE AKO, WEHE ATU KIA MANAAKITIA

## Nga Kōrero ā te Tumuaki

Kia ora koutou parents and whānau, As another year draws to a close let's give ourselves all a massive pat on the back and congratulate each other on a job well done in 2020. This time last year who could have predicted the global change and uncertainty we have gone through. It has been an exceptionally challenging year and although not all of us have been immediately affected by the impact of Covid19, it has never been far from our minds. If not ourselves we will all know somebody that has been financially or otherwise impacted by the virus. Over the summer I hope we can put some of the challenges we have faced behind us and take some time to reflect on all the amazing things that have happened across our kura this year. We have seen a speed of change and seen adaptability in our teachers and students that we have never seen before. As parents, you also stepped up to the plate and became defacto teachers and learning assistants. We embraced the ideas around blended learning, learning from home and learning online and we have been able to build capacity and resilience within our school that will help to support learning into the future. There is so much to be very proud of and a well-deserved summer break to look forward to. I would encourage you all to take the time to breathe, relax and re-energise prior to the 2021 school year.

Titiro atu tō kanohi ki tairāwhiti ana te rā e whiti rā, ki te ataata ka hinga ki muri ki a koe Turn your face to the sun and the shadows fall behind you.

Key Dates Term 1 2021	
Jan 27	Office open for enquiries
Feb 3	Yr 11-13 Only
Feb 4	Yr 0-10 only
Feb 5	All students start Term 1
Feb 8	Waitangi Day observed, no school
April 2	Easter Friday, no school
April 5	Easter Monday, no school
April 6	Easter Tuesday, no school
April 16	Last Day Term 1

The end of 2020 will mark the end of an era at Hurunui College with the retirement of Judith Topp. Judith started in the school office alongside Gloria Hibbard back in 1977 at the time Hawarden District High School transitioned to Hawarden Area School. She supported the introduction of tomorrow schools and Board of Trustees and was also witness to the subsequent name change to Hurunui College. From my reckoning, she has worked alongside 10 different Principals which is a testament to longevity in itself. In 2001 Judith received the MultiServe National Education Award in recognition of her service to Hurunui College. Judith has overseen almost a complete rebuild of the school and alongside her role as Executive Officer has been instrumental in supporting these projects. The school is almost unrecognisable to what it was 20 years ago and it seems fitting that on her retirement we have just finalised the plans for the junior primary rebuild that has been in the pipeline for the past 7 years and is one of the last pieces in the puzzle of our school development. Judith has also managed the introduction of computers and worked through to the evolution of wireless connections and cloud computing and has transitioned the school from paper-based accounting and ledgers through to the use of Xero online accounting. Her longevity in the school is a testament to her resourcefulness, adaptability, resiliency and outright determination to get the job done. With the school being such a massive part of her life for so long, I know her decision to retire would not have been an easy one. Her institutional and local knowledge of the school and community will be impossible to replace. However, retirement is a special time and we wish Judith all the best as she and Brian can look forward to more time together and maybe even an adventure or two in the near future. Judith encapsulates our school value of Service and I know she can leave the school proud of what she has accomplished and confident that she has left the school in a good position for the future. Judith, on behalf of all staff, families and students past and present I thank you for your time and contribution to our school and we wish you all the best in the years to come. Megan Johannis will be stepping up into the position of Executive Officer and Danielle Thompson will fill

the Office Administrator role from the beginning of next year.

Sadly the end of this year also sees us farewell another valued staff member, Jenni McQuillan. Jenni returned to the school in 2016 after a period teaching in Amberley. Jenni has been a fantastic teacher and I know, much loved by both her students and parents. Jenni has been indispensable not just as a teacher but in her role as our guidance counsellor. Jenni will be very much missed but we are reassured that she will remain a familiar face in the school as she transitions into the role as Mana Ake kaimahi, replacing Katie Thomas from the beginning of next year. Katie has also done an amazing job supporting our students and we wish her all the best as she heads off to tackle parenthood.

We also wish Lauren Brinsford all the best as she heads off on maternity leave from the end of this year. We will welcome Georgia Marsh into Kikorangi class as maternity cover and we also welcome Anneke Cameron into Kōwhai class for term one in a fixed term capacity while we advertise the permanent position. Even with the number of changes we are very fortunate that we are fully staffed from the beginning of 2021. Pheww...

Looking ahead to next year we have the redevelopment of the lower primary area of the school to look forward to. The plans have been finalised and we are hopeful for work to start in February/March. This will include a complete redevelopment of our outside learning spaces and play areas. This is definitely something to get excited about.

I wish you all a safe and happy holiday period and we can all hopefully look forward to a more settled and predictable 2021.

Nāku noa, nā  
Stephen Beck  
Tumuaki - Principal  
Hurunui College

Mrs Judith Topp

# Deputy Principal's Report

---

We started the 2020 year, like many other schools, with great plans in mind, but part way through the first term, we soon became aware that this year would be like no other, as towards the end of Term 1 we were forced into lockdown due to the rapid spread of Covid 19. Teachers had to quickly establish what learning from home would look like across each learning community and put into place plans that would best suit the learning abilities of the students. Learning packs were made up for the younger students to take home, and devices were distributed to the majority of our other older learners. There were many challenges for our teachers during this time, but I was extremely proud of their resilience, perseverance and determination to reach out to every student and their families so that they could provide learning activities, support and reassurance to the children and parents as they grappled with this idea of learning from home. Although there were many challenges, there have also been some positive outcomes, and some changes permanently made to our practices. Many teachers and students were forced to go on a steep learning curve as we had to work with technology to connect with our families. 'Google Classroom' became the new normal for our Exploring teachers and students, and Whero Class even experimented with 'seesaw' which is another platform used to share learning between home and school. It is pleasing to see that some teachers are continuing with this technology now that we are back in the classroom. Zoom meetings became the way teachers met during lockdown, and this is a practice that some of us still continue to use to meet professionals outside of school. Another positive was that parents were able to really get to know their children as learners, and also gain a real insight into what their learning looked like. Teachers began to look into classroom practices to help them and their students manage their emotions, and decrease their stress and anxiety. As a result some teachers began running mindfulness sessions, and this has also continued. I have also really enjoyed being out at the gate in the mornings and afternoons each day at the primary end of the school. It is such a joy to greet the children as they come into school each day, and connect with the parents, answering any questions or giving reassurance as required. Despite the disruptive year, the school has worked hard to provide the students with as many fun learning activities as possible. Although a number of our representative sporting events were cancelled, we were still able to run all Hurunui College sporting events, except for the cross country. Throughout the year, our Year 1-7 classes have worked collaboratively, meeting regularly for kapa haka in their learning communities and then meeting regularly and working in buddy classes across the learning communities. One of our highlights was our Tikanga Day, held in early Term 4, in which the whole school participated and were involved in. Later in Term 4, the Discovery and Exploring Learning Communities were able to all enjoy a day trip to Hanmer. Sadly, we farewell Jenni McQuillan, who has taken up a position as a Mana Ake Kaimahi. Jenni is a wonderful teacher, and a great colleague whom we will miss very much. We also farewell Jasmin Findlay who was teaching 1 day a week in Karaka, Year 7 Class this year. Jasmin is an excellent classroom teacher and will also be a real loss to us. She has been appointed Learning Support Coordinator at Cheviot Area School. Lauren Brinsford leaves us at the end of this year, as she is taking 6 months maternity leave. I wish her all the best for the arrival of the new baby. Finally, Judith Topp, our longest serving member of our staff, is also leaving us after 43 years of service. Judith holds a wealth of knowledge about the school, and we will really miss her. I would like to wish her a long, healthy and happy retirement.

I would like to acknowledge and thank the dedicated team of teachers of the Discovery and Exploring Learning Communities who continually work hard to provide the best and fun learning experiences for our students. In addition, I would also like to acknowledge and thank our wonderful, hard working and skilled Learning Assistants who work across the entire school supporting students with learning and behavioural needs, and whose support we can not do without.

Finally, to you all, I would like to thank you for your wonderful support throughout the year. I wish you all a very Happy Christmas and a safe, restful and relaxing family holiday.

Jane Marsh

Deputy Principal

# Discovery

## Hanmer Trip

Discovery syndicate had a great time in Hanmer, lots of smiles and even a surprise visit from Ed's Grandma.

Hanmer Springs School painted and hid some rocks for us along the sculpture walk. What a fantastic walk, if you have never done it before, we recommend it.

We all designed, and painted a rock to hide for them to find. We then went and had a swim in the pools for the afternoon. Thanks to all the parents that came along and supported us.

Here are some stories about the walk.

We went for a walk. We went to the swimming pool. I liked going on the hydroslide.

By Indie

We went to the hot pools. Mum took us swimming. We had lunch. I had fun.

By Al John

Discovery went to Hanmer. First we went on the sculpture walk. I saw some sculptures and we found some rocks. The sculptures were a dog, and some rats too. I helped Ed the Ted's Grandma.

At the pools the best thing was the hydroslide. We went to the fun pool. I went underwater. I kicked underwater. It was a super exciting day.

By Josie

First we went on a sculpture walk and we found rocks. They had drawings on them. We saw Ed's Grandma. The best thing was going on the hydroslide. It was fun and it was warm.

By Leah

We went to Hanmer. We went on a sculpture walk. We saw dogs and gorillas. We hid rocks. We found rocks. Then we went in the lazy river. My favourite thing was the lazy river. It was fun. I liked it. It was really fun.

By Ellie

I went with Noa, and I went with Mum too. I went on the playground in the hotpools. It was a big, big deep pool. I got hot chips.

By Kavana

I saw a giant. We had a swim. It was fun.

By Andre

I am going on the hydroslide with my friends. It went in circles. It was the best time. I loved it!

By Lewis

## Crazy Bird Art

# Whero

In Term 4 we have welcomed Kavana Robins and Ella Smith into our class. We have had school visits from 8 four year olds, who are starting at the beginning of next year. It was a busy time, but it was great meeting everyone, and we all had fun.

Learning Through Play is routine in Whero Class. This has reinforced the children learning how to problem solve, using their imagination, social skills, communication, with a real focus on co-operation. We love using loose parts and come up with some brilliant ideas in play.

# Passion Projects

This term we have been focusing on our Passion Projects. After a lot of discussion we all came up with our own projects. There was a huge variety of projects, from videos, song writing, writing their own books, painting, making a playground, robots and even a scooter being made. We needed to solve problems (debug) and had to ask for help when we needed it from our friends.

# Waiporoporo

At the end of Term 3 Jens Grove shaved his head as a fundraiser for the fight against cancer. We are very proud of Jens and his effort to help others.

What an exciting Term 4 we had. We were busy in class with lots of cool projects like science, our passion projects and art. We also looked at plays and had heaps of fun getting quick at answering maths questions.

Outside the classroom we had Tikanga Day, Top Team, a disco and a game of soccer against the year 8s. Our trip to Hanmer was a fantastic experience, with a lot of very tired children (and adults) over the next couple of days.

The children have had the most incredible attitude in what has been a very unsettling and disjointed year. They have progressed in their learning under difficult circumstances and have made it fun for all of us. Despite all the disruptions this has been a great year for Waiporoporo. (Ka nui taonga nga tamariki o Waiporoporo).

# Science

Yesterday we did Science with Mr Kelly. We turned brown coins into silver coins, then into gold coins. He told us a story about a leprechaun. I wonder when we can do science again?

Ila

I did Science with Mr Kelly. We turned a brown coin into a silver coin. Then a silver coin into a gold coin. It was fun. My favourite part was when Mr Kelly put the coin over the bunsen burner.

Mikaila

Yesterday we went to Science with my Dad. We turned ten cent coins into a 50 cent coins, then into gold! Dad told us a leprechaun story. It was fun.

Darcy

Yesterday we did Science with Mr Kelly. It was magic. We did it with the bunsen burner. The blue flames were the hottest. We turned a brown ten cent into a silver coin. Then into a gold coin. It was fun.

Angus

# Exploring

## Hanmer Trip

Exploring Learning Community missed out on camp this year due to lockdown. This term we decided to have a camp experience by having a big day out at Hanmer Springs. Activity Hanmer provided a fun morning of mountain biking, tree climbing and rock climbing. After lunch we had a blast swimming and water sliding at the pools, and then finished off our day with a fish and chip dinner.

# Kikorangi Topic Projects

Kikorangi class has been learning about sustainability and biodiversity this term and we have all made topic projects.

My project was about hydroelectricity and how using less fossil fuels can stop climate change and species going extinct. Hydroelectricity is a more effective way to generate electricity for the planet and animal species.  
By Charlie Carthy

My project is a game on scratch about deforestation saving the ocean from pollution plus making money to buy renewable energy. Making it fun and enjoyable.  
By Connor Earl

Kikorangi class has been learning about sustainability and biodiversity this term and we have all made topic projects.

My project is about deforestation and palm oil . Over the past few days I have been creating a poster , model , digital story all on deforestation. It is a very sad topic but all the stuff you will learn on my project is trow. Come to kikorangi class and see for yourself .  
By Sophie Frost

My project is a poster about the rainforest. It tells us that we need to look after our trees and stop people from cutting them down. That is called deforestation.  
By Zac

I made a minecraft world for my topic project. It had lots of animals and trees. It shows why deforestation is bad, and why forestation is good. I made a glass room with bees in it. I also predicted what would happen if the bees became extinct!

Ariana Luton

Josie and Dustin created worlds to show how to revive our oceans from over fishing. Alexa created a world showing that we should not be cutting down trees for deforestation.

My Topic project was about being Flexitarian. Being Flexitarian means that you have a diet of 65% veggies and reduce your meat eating. I made a recipe book, and also made a giant batch of orzo salad to share with the class. Being a flexitarian is good for the environment and helps prevent deforestation.

Rosie Badcock

My project is about deforestation how it affects animals and nature. Making my website was fun it was stressful but i got it done in the end.

Samantha Jackson

My project is about biodiversity and why we need native birds. I have decided to take my class on a trip to Flaxmere Gardens. We will be asking Penny Zino questions about what native plants encourage native birds to increase biodiversity. The class will be going for a swim and enjoying a quiz in the garden.

Will Zino

## Baby Weights

Kikorangi class have been learning about measure in maths. We had to find out how much we weighed when we were born and convert it into kgs. We then weighed a baby doll and built it up to our baby weights. Some of them were pretty heavy. Will weighed the most at birth and Josie was the lightest birth weight. We then predicted how much we think Miss B's baby will weigh. We also feel sorry for her and our mums for having to carry around all that extra weight!

## Karaka Passion Projects

In Term 4, all Year 1-7 classes did Passion Projects for Topic. This was a great way for us to launch into doing inquiry learning with greater depth and allowing students to choose a pathway for their learning. In inquiry, students think about what they are most interested in or passionate about (most often within a broader topic), think of a project idea, ask an inquiry question that can't be answered by googling or just knowing, and think about what the end product or presentation will be. Karaka students had some awesome ideas and these are some of their finished projects. Some were created using digital technology such as Minecraft or slide shows, so these photos are just a representation.

Riley Abbott - What do I need to set up a dairy farm?

Libby Ginders - Can I design my own clothes?

Katelyn Burnett - How do foxes live and what challenges do they face?

Grace Dagcutan - How can I inspire people with my art?

Rosie Black - What are some different types of pencil drawing techniques and can I make some drawings using these techniques?

Jedd Castaneda - What are the different types of surfboard and how are they made?

Samuel Dobbs - What are the steps of becoming a Westpac Helicopter Paramedic?

Grace McKnight - How can I design my ideal setup for a horse training business?

Matthew Paton - How can I explain to people how a small motor works?

Danielle Petrie - What are some of the most famous paintings in the world, and what makes them famous?

Pieta Sidey - How can I show others what farming is like?

Ben Spencer - What do you need to know to set up a dairy farm?

Sophie Thompson - How can I encourage young women to participate in sport when they don't have equal rights or opportunities?

Kasey Toomey - How can I encourage people to treat pets fairly?

# Investigating

## Trapshooting

On the 25th of September the Trapshooting Nationals were held all around New Zealand due to covid-19. The 320 shooters were shooting at different ranges around NZ, 5 in the North Island and 2 in the South. I shot at the Waihora range for both shoots .

On the 1st day it was the South Island Champions Shoot, where I shot some personal bests. The 2nd day was the Nationals Secondary School Trapshooting competition. The other schools shooting at Waihora were St Andrews, Christchurch Boys High, Christ College, and Lincoln High School. They were all questioning where Hurunui College was, and what kind of school it is!

Once getting over the nerves of a big shoot, I decided that I'd just try my best. Even though the north west wind made it difficult for everyone. The clays flew so oddly that even some of the most experienced shooters were having trouble. Even with the winds, I ended up only being 2 points away from coming 3rd in Point Score, with another personal best.

I knew that I'd at least tried my best and did Hurunui College proud. Next year, the Nationals Secondary Trapshooting competition is in Palmerston North.

For the rest of the year we have 6 more Canterbury Schools shoots. Only time will tell how well the shooting will go, but it should end well. Also now Maggie Ferguson has started shooting. This means Hurunui College now has a full Secondary Schools girls trap shooting /skeet team. A huge thanks has to go to our coach, Graeme Everett, who is very kindly letting us train alongside Christchurch Boys High.

And for our transportation, Robbie McIlraith, (also my main, and only sponsor).

Millie-Jane McIlraith

# Maths

---

The Year 9s were challenged to make the box of the biggest volume possible from a single sheet of A4 paper. The reward was that Mr McNaughton would fill it with marshmallows. There were several creative entries, but the simple boxes had the biggest volumes.

# Year 8 Sports History

---

This term, the Year 8 class looked at Sports History for one of their inquiry units. The students would investigate an ancient form of a sport, find the rules, and re-enact them in the old style of play. Some of the sports dated back as far as the middle ages and included Mob Football (early rugby), Rounders (early baseball), and Pelota Purépecha (Aztec hockey). The students had so much fun learning about the evolution of sport. Ka rawe!

## Soft Materials Tech

---

This year Design Technology (Soft materials) undertook a collaborative unit with Art to produce a sustainable bag. The students learnt about printing techniques in Art and then printed a length of fabric. They used this fabric to design and make a unique bag that they produced in the sewing room.

## Design and Technology

---

Students this year learnt a number of skills in the design and soft materials class. With these skills they went on to make a wide variety of items from a crocheted horse fly bonnet, dog coats with machine embroidery, clothing, through to a full set of floor length bedroom curtains.

## Yr 8-10 Science

---

In 2020 the Year 8 - 10 students' science learning was focused around designing, building, and testing electronic possum lures. Firstly the students were placed into partnerships for the year, and we reinforced some 'soft skills'. We then learned about the process of design thinking, through which new ideas are developed, with the end user in mind. To create an electronic possum lure, the students learned how to programme microchips, and use these to receive information from sensors and to command components. To understand how to best design possum lures, we held video conferences with experts in the field, including Manaaki Whenua, local possum controllers, The Cacophony Project, etc. In order for the students to make informed, science-based decisions about their designs, we did much learning in the topics of ecology, sound, light, and electronics. To finish the project, we tested the lures around the Balmoral Forest, giving the students the opportunity to experience the real-life application of their work.

# Football

This term, a much anticipated football clash between the Year 8s and Waiporoporo occurred. Plenty of banter was had in the lead up to the game with the junior class recruiting two big names, Mr Ferguson and Mr Coplestone, for the match. The game was highly competitive and ended in a narrow 1-0 win to the seniors. Great respect, excellence, and integrity was on display from both sides with a rematch almost certain to take place in the new year. Tu meke!

# Year 10 Health

As part of the Year 10 Health programme, the students have finished the year focusing on leadership. In class, they planned some activities and then on 27th November, the Year 10's visited the Exploring Learning Community during their RISE time to do some art, origami, cricket and swimming activities.

All of the students enjoyed the chance to get to know each other a little more and learn some new skills. Well done to the students from Kowhai, Kikorangi and Karaka class who participated with enthusiasm. The Year 10 students really enjoyed their time working in the primary school.

## University Presentation

On Friday 20th November, a group of medical students from the University of Otago came to school and presented a workshop to our Year 9 and 10 students. The workshop gave our students the chance to learn about some of the health opportunities that are on offer at University. We had student Doctors, Physiotherapists and Dentists sharing some of their knowledge and our students got to experience some fun, hands-on activities. The medical students all come from regional towns in NZ, so it was a great example to our students that it doesn't matter where you live - you can do anything you set your mind to! Another interesting point we learnt about the Otago students was how many of them had done previous study before going into medicine. One Doctor in training had previously done a nursing degree, while another had done a Neuroscience degree!

## Model EU

---

On the 20th-21st of October me and a few other students went to the University of Canterbury and participated in the model EU (European Union). The first day was getting to know about what is happening in the the EU and what we have to do. The second day we finally got into some debating and agreements then on the last day we had a big final parliament debate. I enjoyed it so much I wanted to do it again. So, I brought back what I knew from the model EU and made a 'Year 9 Hurunui College Model EU'. I think the Year 9 EU went really well, lasting about an hour and a half which was a perfect time. Looking forward to next year highly recommended taking part in a Model EU.

Luke Chisnall

## Hurunui-Amuri Debating Comp

---

On Tuesday the 1st of December, at the Hawarden Memorial Hall, Amuri Area School and Hurunui College went head to head in a day long debating competition. We took three teams to this competition which had some odd moots (what we're talking about in the debate) the first was 'parents should monitor their children's social media use'. Our second debate moot was 'in a world where a potion exists that would allow you to read minds this house would take this potion'. The third moot for my team was 'Santa Claus is evil' and this was to decide who came first and second in the debate competition which Luke Chisnall, Hunter Cattermole and Millie-jane McIlraith won. In short debating is an amazing experience and you can meet some amazing people and talk about some crazy things I would suggest it to anyone

Millie-Jane McIlraith

# Aspiring

---

## YES Regional Awards

---

Kaihanga Waiata were one of the top 5 teams in North Canterbury. As such they were invited to pitch in competition at the Young Enterprise Scheme Regional Awards. This is a massive achievement for the team and the hard work they have put in over the last year.

## Senior Hospitality

---

The senior students made some restaurant quality meals this year, a few select staff were lucky enough to get to try some of them. Yum!

## Outdoor Education

---

Throughout the year the senior Outdoor Education students have been developing their skills across several outdoor pursuits with the main focus being on Mountain Biking over the winter. This culminated in an assessment week at the end of Term 3 where the class spent the entire week out about around the local area. It started off with a day mountain biking at the St James Homestead and Hanmer Springs forest tracks. We then made our way to Kaikoura where we based ourselves for the rest of the week. Our 4 days in Kaikoura included a day biking the Kaikoura Cycle Trail, a day walk up the Hapuku River, and an overnight Tramp which involved a mammoth climb up Mt Fyffe in the sun then dropping down to the Kowhai Hut where the class camped for the night. On the final day the class packed up and walked down the river and made their way back to school for the holidays. This was a huge effort with around 80km of Biking and around 15 hours of Tramping completed over the week in warm weather. We would like to thank Drew Wilson for coming along with us and sharing her knowledge and stories during the week. In Term 4 we were finally able to complete the work we were doing towards Snorkelling which was interrupted earlier in the year by COVID restrictions. The students spent a day in Rangiora refining their skills before we headed off to South Bay in Kaikoura to complete the in water practical sessions. We got a stunning day with an ice block stop required in Cheviot due to it being 30 degrees at 10am. Logan's generosity made a number of road workers days as he handed out the leftover ice blocks to them. With conditions perfect the class were able to complete 3 dives and tick off all components for their assessment and have some time to explore the area for themselves.

## Mayor Visit

---

Friday the 26th of June, Year 10 students at Hurunui College had a special guest. The mayor of the Hurunui District Marie Black came to talk about her job as Mayor. She talked about her past life before she went into politics like her time being a midwife and Plunket nurse for the Hurunui area, how she had once been at the same school and about her time in the council as Deputy Mayor when Winton Dally was in charge of mayor. She had also explained how the council works, what happens in the council meetings, how the council decision on things are made and what things the District Council are in charge of.

Rachael Burnett (Yr 10)

## Ravensdown Visit

---

On November the 4th the Yr 12 Chemistry class and some of the Yr 11 and 12 Land based studies class visited the Ravensdown Fertiliser plant in Papanui Christchurch. Although it is “right in the city” the plant manufactures sulphuric acid and uses it to make superphosphate fertilisers. As well as this they also import and distribute other fertilisers from around the world. The Chemistry and Agriculture students went to learn about the chemical processes involved and to find out about the types of fertilisers the plant supplies. Thanks go to Mr Greg Costello (a parent of the school) for arranging the trip and our very knowledgeable escorts and tutors for the visit.

## Yr 12 Physics

---

In terms 3 & 4 of this year, the Year 12 Physics class designed, built, and tested a giant catapult. The students calculated the elastic potential of the catapult and forecasted how far it could fire a large arrow at different angles of elevation and elastic extension. When tested, we managed to fire a large arrow over 66m, which we were pretty happy with! The students then completed an assessment to explain the physics of how to optimise the catapult.

## Yr11/12 Agriculture

---

In Term Four, a large group of agriculture students went to Michael and Lisa Barton's farm to practice lamb docking. The students practiced moving, drafting, holding, tailing, castrating, ear marking, and vaccinating sheep. The Bartons were very happy with the quality of work and the attitude of the students. We finished the day with a tour of the greenfeed crops on the property, and explored the potential for next generation hybrid crops, such as Raphno, in the Hawarden area.

# Sport

## Top Team Trailer

During Term 2 with most sporting events being cancelled Primary Sport Canterbury put 4 different challenges to Year 5-8 students. There were scooter, skateboard, skipping and dance challenges that were videoed and sent in to be judged. Hurunui College came in first place and their prize was an afternoon doing fun activities set up by Primary Sport Canterbury out of their awesome activity trailer. What a great prize to have won, and we couldn't have asked for better weather. They were able to set up 3 water activities which was a highlight for most students! Thank you to the Year 5-8 students who participated in these challenges, it was outstanding to see you all engaging in an opportunity to do something different, Congratulations!

## Canterbury Primary Swimming Champs

---

The Canterbury Primary Swimming Champs were finally held on the 15th October at Selwyn Aquatic Centre, having been put off since March. Students gained selection by winning their races at the Hurunui Zone Swimming champs held in Waiiau on the 28th February. Riley Abbott- Year 7 Freestyle and Backstroke. Sinead Chisnall- couldnt compete because of injury. Well done Riley, it's not easy competing at Canterbury Swimming level when it is not swimming season! 15th out of 33 students, a fantastic effort.

## Basketball

---

Hurunui College entered two teams in the Friday Night Basketball Competition. Both our teams made it to the finals which was an amazing achievement in itself. Our girls team, Hurunui Ewe's had a tough battle against Marian College but couldnt quite get the win going down 14-15. Our mixed team Hurunui Rams took on Hagley Community College, and took out a massive win 54-25, congratulations team! Thank you to both teams for representing Hurunui College with pride each week. Acknowledgement must be made to Jason Moore and Julie Topp for coaching our teams also Bronnie Gunn and Wendy Harris for managing them, your time and effort is greatly appreciated.

## Canterbury Duathlon

---

Hamish Thompson and Shea Kelly represented Hurunui College at the Canterbury Duathlon at Halswell Quarry on the 19th October. Well done to both boys for showing excellence at the event and also a huge thanks to Serena Kelly who took the students and also volunteered to help with setting up the event in the morning.

# Hurunui College Athletics Day

---

We held our annual Athletics Day on the 28th October. The day ran smoothly, with sunblock and hats a necessity as it was such a sunny afternoon. The students worked really hard practising each event for the last 4 weeks, to reach their full potential at Athletics. We saw many records being broken, some of which have been held for many years, congratulations to those students for such an inspiring achievement! Thank you to the parents who came, supported and cheered on the sidelines, we loved seeing you all there.

# Hurunui Primary Schools Athletics

---

We took 40 students up to Amuri Area School for the Hurunui Primary Athletics on 9th November. Students were selected by placing first or second in events from Hurunui College Athletics Day.

Our students should be very proud of themselves for giving it their all and representing Hurunui College with pride. A huge congratulations to Nikau Reti, Kirsten Santana and Harry Sidey for making the Canterbury Athletics that they will compete at on the 2nd December.

# Canterbury Primary Athletics

---

Hurunui College had four students selected to go down to Nga Puna Wai on the 2nd December to compete at the Canterbury Athletics. Congratulations to Nikau Reti (100 Metres) Kirsten Santana (60 Metres & Long Jump) Harry Sidey (60 Metre & Long Jump) and Nicola Upritchard (Discus) for being selected to compete at this event, a huge achievement.

# New Sports Records for 2020

Year 7 Male: Riley Abbott	Freestyle	Breaststroke	Backstroke	Butterfly		
Year 7 Male: Matthew Paton	1-Backstroke	1-Breaststroke	1-Freestyle			

# Cultural Events

## Tikanga Day

On Tuesday 20th October the school had a cultural celebration day, involving students, staff, whanau and members of the wider community. We kicked things off with Joseph Hullen from Ngai Tuahuriri, presenting a fascinating and informative speech to the whole school. Most people came away with a deeper understanding of our area and the connections we all have.

There were a number of different workshops available to everyone. From poi making and weaving to carving, kite making and ta moko. Enthusiasm was high and, from the feedback, interest and enjoyment was too.

Our cooks worked hard to present us with a delicious lunch of boil up and spit roasts. Which was greatly appreciated by all. Hurunui College Scoops set the atmosphere, providing sweet sounds to accompany the meal.

The weather played its part too. The day was perfect, sunshine and no wind. By the time hometime arrived, it felt like we had grown together as a community of learners and everyone was feeling really good and positive about the day.

Special mention to Mr Beck for his support, encouragement and behind the scenes work that helped make the day so successful.

# Sports Prizegiving

---

We held our annual Sports Prizegiving on the 10th November in the school gym. It was great to see our top sports students receiving their well-earned prizes, as much as it has been a tough year for everyone involved our students still grabbed sporting opportunities as they came along with enthusiasm.

George Glover, Marlborough Boys College Head Boy was our guest speaker, he spoke with passion when telling about his journey of swimming a 123km loop of the Queen Charlotte Sound over 10 days. His main reasons for challenging himself to this incredible event was to raise awareness around and money towards mental health, George raised more than \$60,000 that was donated to the I AM HOPE foundation. He pushed the message to the students that the people you surround yourself with will influence your successes in life, so choose people who want to help and see you succeed.

Thankyou to our school band "Scoops" for giving us an amazing performance, and to our parents/caregivers that came to our prizegiving.

# Prizegiving List

---

## Whero Class

Lewis Christophersen	For a positive attitude to school, effort in sport and for having great ideas to build or play
Eva Harray	For excellence in Reading and Writing, effort in Mathematics, and always putting in her best effort
Willow Hodgkinson	For a caring nature towards peers, effort in Physical Education and being more willing to try new things
Josie Kirkland Manderson	For great ideas in Writing, being a caring class member, and trying her best in all learning areas
Kavana Robins	For settling well into Whero Class and learning the class routines
Ella Smith	For learning the school routines and settling well into Whero Class
Te Rakai Smith	For great ideas in construction, for giving new things a go, and creativity in play
Indie Stanley	For excellence in Mathematics and problem solving, and effort in Art
Al John Talampas	For a wonderful imagination in Story Writing and Storytelling, and ability to construct with materials
Andre Velmonte	For a positive attitude to school, effort in Reading, and having good ideas in learning through play

## RISE AWARDS:

Kelly Abbott	For being keen to learn in all aspects of school, caring towards peers, and excellence in Reading
Becca Anderson	For excellence in Reading, Writing and Art, supportive of peers, and having a great attitude to learning
Ellie Frame	For a positive attitude in all aspects of school, consistent effort in Reading and Physical Education, and caring nature toward peers
Leah Tuinawaivuvu	For excellence in Physical Education and Art, and progress in Reading and Writing

## Kakariki Class

Ila Biddlecombe	Excellence in Reading, Writing, Mathematics, and Art, positive attitude and ability to challenge herself to learn new things
Caitlin Black	For her creative ideas, dedication to learning and challenging herself, and Excellence in Art
Mollie Courto	For ability to relate to her peers and bring out the best in them, and showing excellence in all learning areas
Darcy Kelly	For his creative ideas and determination to learn new things, and excellence in Reading, Writing, Mathematics and Physical Education
King Lampinez	Excellence in Physical Education, positive attitude to learning and consistent effort in Reading and Mathematics
Maddie McDonnell	For a positive attitude, sharing ideas in class and resilience in learning, always giving things a go to the best of her ability
Jake Murray	For a positive attitude, and perseverance for learning new things, and excellence in Reading, Writing, Mathematics and Physical Education
Mason Rogers	For kindness to others, always coming up with creative ideas for things to build, play and draw and Excellence in Art and Physical Education
Hunter Toki	For being a reliable, kind, happy and hard working member of the class and for Excellence in Reading, Mathematics, Māori, Physical Education

Mikaila Turner	For consistent effort in Mathematics and a happy attitude to learning, and Excellence in Art
Abby Youngman	For her creative ideas, determined attitude to succeed, expressive Storytelling and Excellence in all learning areas

#### RISE AWARDS:

Cassie Earl	For always having a positive attitude, excellence in Art and Physical Education, and consistent effort in Reading and Writing
Angus Ferguson	For determination to complete everything to the best of his ability, his ability to understand how things work and showing excellence in all learning areas
Billie Ramsay	For her kindness to all, excellence and dedication in all learning areas and being a reliable and organised class member
Stanley Savage	For dedication to learning, excellence in Mathematics, Physical Education, and demonstrating consistent effort in Reading and Writing

### Waiporoporo Class

Frank Anderson	For his incredible Storytelling and hard working attitude
Noa Cory	For her amazing general knowledge and detailed illustrations
Caitlyn Ferguson	For helping others and consistently being responsible and reliable
Patrick Frame	For his inquiring mind, impressive general knowledge and love of learning
Pippa Ginders	For always being willing to help others, taking on responsibility and beautiful illustrations
Jens Grove	For taking on responsibility, being reliable and exceptional sporting prowess
Hunter McKinlay	For outstanding creativity, insightful thinking and commitment to his goals
Kyana Robins	For great progress in Reading and Writing and always being willing to help others
Nico Svensson	For outstanding general knowledge, creativity and artistic ability
Tylan Toomey	For all the work he has put into Reading and Writing and a great effort in Mathematics

#### RISE AWARDS:

Katie Devine	For always trying her best in everything she does and being a great role model
Beth Earl	For being an outstanding class leader, always reliable and responsible and having a great attitude to learning
Nathan Lampinez	For a consistent hard working attitude and excellence in spelling
Tina Tuinawaivuvu	For exceptional abilities in sport, music and dance

## Kowhai Class

Gemma Costello	Excellence in Reading and Writing
Darcy Ramsay	Excellence in Reading, Mathematics, Technology and Integrated Topic
Charlotte Thompson	Excellence in Writing and Mathematics
Hamish Thompson	Excellence in Reading, Mathematics and Technology

### RISE AWARDS:

Lily Frost	For showing plenty of resilience and for being so enthusiastic and positive
Elizabeth Murray	For having a great attitude towards learning and always being kind and respectful to others
Harry Sidey	For consistently demonstrating integrity and respect towards others
Aurora Smith	For having a positive attitude and showing perseverance and resilience

## Kikorangi Class

Bailee Cattermole	Excellence in Mathematics
Josie Earl	Excellence in Reading
Shea Kelly	Excellence in Mathematics
Ashlee Murray	Excellence in Writing and Reading

### Rise Awards:

Connor Earl	For being considerate of others, enjoying each day, and always polite and helpful
Kayleigh Turner	For always offering to help adults and a consistent effort in learning
Alexa Velmonte	For always helping others and showing initiative in the classroom; a great leader
Will Zino	For having a cheerful approach to learning and classroom life, and always being kind to others

## Karaka Class

Jedd Castaneda	Diligence in Physical Education
Grace Dagcutan	Academic Excellence in Art
Libby Ginders	Diligence in Food and Design in Soft Materials
Harry Giller	Academic Excellence in Mathematics
Anniemay McKay	Academic Excellence in Reading, Inquiry, Science and Hard Materials
Grace McKnight	Academic Excellence in Reading and Writing
Sophie Thompson	Academic Excellence in Mathematics, Reading, Physical Education and Food and Design in Soft Materials, and Diligence in Science and Art

## RISE AWARDS:

Libby Ginders

For showing leadership by being thoughtful, using initiative and helping others

Pieta Sidey

For being considerate of others, and always being polite and helpful

Kasey Toomey

For showing kindness and resilience, and for consistent effort and improvement in her learning

Sophie Thompson

For consistently demonstrating all RISE values, leadership, initiative, and contribution to the class
